#### Section 1 – Product and Company Identification

#### **Product identifier**

Product Name: Water Based Duct Sealant Product Code: DP 1030 Gray

#### Intended use of the product Duct Sealant

#### **Restrictions on Use**

For industrial use only.

#### Supplier's Details

Manufactured By: Address: Information Phone: Website: Design Polymerics 3301 W. Segerstrom Ave., Santa Ana, CA 92704 (714) 432-0600 www.designpoly.com

#### **Emergency telephone number**

#### Section 2 - Hazard Identification

#### **Hazard Classifications**

GHS Classification	
Aquatic Acute 3	H402
Aquatic Chronic 3	H412

#### Label Elements

GHS Labeling	H402 - Harmful to aquatic life.
Hazard Statements	H412 - Harmful to aquatic life with long lasting effects.
Precautionary Statements	<ul> <li>P201 - Obtain special instructions before use.</li> <li>P260 - Do not breathe vapors, mist, or spray.</li> <li>P263 - Avoid contact during pregnancy/while nursing.</li> <li>P264 - Wash hands, forearms, and other exposed areas thoroughly after handling.</li> <li>P270 - Do not eat, drink or smoke when using this product.</li> <li>P273 - Avoid release to the environment.</li> <li>P308+P313 - If exposed or concerned: Get medical advice/attention.</li> <li>P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations.</li> </ul>

Full text of H-statements: see section 16

#### **Other Hazards**

Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

#### Unknown Acute Toxicity

No additional information available

\* This product contains one or more materials that may be hazardous when present as an airborne dust. During normal handling of this product, the material is encapsulated within the product and will not present an exposure risk. Once the product has reached its final state and is abraded or disturbed, dusting and exposure may occur. This product contains crystalline silica (quartz) which is hazardous when present as airborne dust. As provided, and during normal use of this product, this substance is encapsulated within the product. As such, it is considered to be inextricably bound, and not readily available for exposure.

Any remaining ingredients (to comprise 100% of the product) should be considered a proprietary blend of non-hazardous substances, or materials below threshold reporting limits.

#### Section 4 – First Aid Measures

#### **Description of First-aid Measures**

General: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

**Inhalation:** When symptoms occur, go into open air and ventilate suspected area. Obtain medical attention if breathing difficulty persists.

**Skin Contact:** Remove contaminated clothing. Drench affected area with water for at least 5 minutes. If exposed or concerned: Get medical advice/attention.

**Eye Contact:** Rinse cautiously with water for at least 5 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists.

Ingestion: Rinse mouth. Do NOT induce vomiting. Obtain medical attention.

#### Most Important Symptoms and Effects Both Acute and Delayed

Inhalation: Prolonged exposure may cause irritation.

Skin Contact: Prolonged exposure may cause skin irritation. May cause an allergic reaction in sensitive individuals.

Eye Contact: May cause slight irritation to eyes.

Ingestion: Ingestion may cause adverse effects.

**Chronic Symptoms:** Titanium dioxide is bound in the liquid matrix and is not able to become airborne. Thus, the hazards usually associated with titanium dioxide are not applicable to this product. This product contains crystalline silica (quartz). The crystalline silica is bound in the matrix of the liquid product and under normal conditions of use dust is not expected to be produced. If dried, processed, and dust is released into the air repeated exposure to respirable (airborne) crystalline silica dust may cause lung damage in the form of silicosis, lung cancer, or respiratory irritation. Long term exposure to respirable crystalline silica results in a significant risk of developing silicosis and other non-malignant respiratory disease, lung cancer, kidney effects, and immune system effects.

#### Indication of Any Immediate Medical Attention and Special Treatment Needed

If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

#### Section 5 – Fire-Fighting Measures

#### Extinguishing Media

**Suitable Extinguishing Media:** Water spray, fog, carbon dioxide (CO2), alcohol-resistant foam, or dry chemical. **Unsuitable Extinguishing Media:** Do not use a heavy water stream. Use of heavy stream of water may spread fire.

#### Special Hazards Arising from the Substance or Mixture

**Fire Hazard:** Not considered flammable but may burn at high temperatures. **Explosion Hazard:** Product is not explosive. **Reactivity:** Hazardous reactions will not occur under normal conditions.

#### Advice for Firefighters

Precautionary Measures Fire: Exercise caution when fighting any chemical fire.

Firefighting Instructions: Use water spray or fog for cooling exposed containers.

**Protection During Firefighting:** Do not enter fire area without proper protective equipment, including respiratory protection. **Hazardous Combustion Products:** Under fire conditions this material may produce hazardous carbon dioxide (CO2), carbon monoxide (CO), Halogenated Compounds, Sulfur oxides, Nitrous fumes, Nitrogen oxides, Aldehydes, Ketones, Calcium oxides., various low molecular weight hydrotarbons, and smoke.

Other Information: Do not allow run-off from firefighting to enter drains or water courses.

#### **Reference to Other Sections**

Refer to Section 9 for flammability properties.

#### Section 6 – Accidental Release Measures

#### Personal Precautions, Protective Equipment and Emergency Procedures

**General Measures:** Do not breathe vapor, mist, or spray. Do not get in eyes, on skin, or on clothing. Do not handle until all safety precautions have been read and understood.

#### For Non-Emergency Personnel

**Protective Equipment:** Use appropriate personal protective equipment (PPE). **Emergency Procedures:** Evacuate unnecessary personnel.

#### For Emergency Personnel

Protective Equipment: Equip cleanup crew with proper protection.

**Emergency Procedures:** Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area.

#### **Environmental Precautions**

Prevent entry to sewers and public waters. Avoid release to the environment.

#### Methods and Materials for Containment and Cleaning Up

For Containment: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Methods for Cleaning Up: Clean up spills immediately and dispose of waste safely. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill.

#### **Reference to Other Sections**

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

#### Section 7 – Handling and Storage

#### **Precautions for Safe Handling**

Do not allow product to dry out. Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and when leaving work. Avoid prolonged contact with eyes, skin, and clothing. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist, spray, vapors.

Hygiene Measures: Handle in accordance with good industrial hygiene and safety procedures.

#### Conditions for Safe Storage, Including Any Incompatibilities

Technical Measures: Comply with applicable regulations.

**Storage Conditions:** Keep container closed when not in use. Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials. Store locked up/in a secure area.

Incompatible Materials: Acids. Oxidizers.

Specific End Use(s): Duct Sealant

#### Section 8 – Exposure Controls/Personal Protection

#### **Control Parameters**

For substances listed in section 3 that are not listed here, there are no established exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), AIHA (WEEL), NIOSH (REL), OSHA (PEL).

#### Exposure Controls

**Appropriate Engineering Controls:** Suitable eye/body wash equipment should be available in the vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed.

**Personal Protective Equipment:** Gloves. Protective clothing. Protective goggles. Insufficient ventilation: wear respiratory protection.

Materials for Protective Clothing: Chemically resistant materials and fabrics.

Hand Protection: Wear protective gloves.

### SAFETY DATA SHEET DP 1030 Gray Water Based Duct Sealant

Revision Date: March 21, 2022 According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 Page 6 of 11

Eye and Face Protection: Chemical safety goggles.

Skin and Body Protection: Wear suitable protective clothing.

**Respiratory Protection:** If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

Consumer Exposure Controls: Avoid contact during pregnancy/while nursing.

Other Information: When using, do not eat, drink, or smoke.

Other Information: Avoid release to the environment.

**DP 1030 Gray Water Based Duct Sealant** 

Revision Date: March 21, 2022 According To Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 Page 10 of 11

#### Section 13 – Disposal Considerations

#### Waste Treatment Methods

Waste Disposal Recommendations: Dispose of contents/container in accordance with local, and federal regulations.

**Ecology - Waste Materials:** Avoid release to the environment. This material is hazardous to the aquatic environment. Keep out of sewers and waterways.

#### Section 14 – Transport Information

The shipping description(s) stated herein were prepared in accordance with certain assumptions at the time the SDS was authored and can vary based on a number of variables that may or may not have been known at the time the SDS was issued.

**DOT:** Not regulated for transport **IMDG:** Not regulated for transport **ATA:** Not regulated for transport **TDG:** Not regulated for transport

#### Section 15 – Regulatory Information

#### **US Federal Regulations**

#### Inventory Status

All components are listed on or exempt from the U.S. EPA TSCA Inventory List.
